

ProStrip Wire Strippers

Strip solid and stranded,
Comfort grip, feel the difference
Use left or right handed

ProStrip 10/20 & 16/30 Wire Strippers

Designed to meet the demanding expectations of professionals, the new ProStrip wire strippers deliver top performance, total comfort and consistent, reliable results.

- Precision-ground strip nest for clean strips on solid or stranded CU/AL wire
- Durable ergonomic grips reduce hand and wrist fatigue
- Requires less hand force to cut due to geometrically designed handles
- Use left or right handed – wire size marked on both sides of tool
- Non-slip, color-coded handles to quickly distinguish tools
- Lock device protects cutting & stripping edges when stored
- Opening stop prevents spring from coming off and becoming disengaged
- Curved blades for easier cleaner cuts

Application

- ProStrip 10/20: Cut & strip 10-20 AWG solid and 12-22 AWG stranded
- ProStrip 16/30: Cut & strip 16-30 AWG solid and 18-32 AWG stranded
- Cut and chase threads on 6/32 & 8/32 bolts
- Serrated plier nose for gripping, pulling and twisting
- Holes in jaw for looping wire

Technical Data

- Body material: S45C
- Steel hardness: HRC 45 +/-2
- Finish: Black Oxide
- Spring material: German SWPA (piano wire)
